Serve**

**Begin Your Transformation
Journey With Us**

About Us

With V3iT, the most trusted advisor for SAP customers, simplify your transformation journey and achieve organizational success. Leveraging the design principles, we help you deliver solutions that are user-centric, technically feasible, economically viable and sustainable for future development. Since the year of foundation in 2001, we have achieved several milestones where we were amongst the early adopters who delivered SAP certified HANA product and successful S/4 migration in our industry.

We believe in long term relationships with the customers we work with, employees we hire and our technology partners. We are a family of professionals who will take your business as our own and then work towards solving your challenges. This is clearly depicted by the quality of our services which is the sole reason we have got returning customers in the past. We aim to provide holistic approach to offer the solutions so you do not have to worry about upsizing, downsizing or underutilization of resources and manpower.

We take pride in giving personal attention to every customer we serve. We believe every customer is different although they share the similar challenges in their industry sector. Therefore, we provide personalized assessments, workshops and action steps. We start by understanding your business strategies and define your challenges from a user-centric perspective and then provide the technology enablers to help you achieve your desired outcomes.

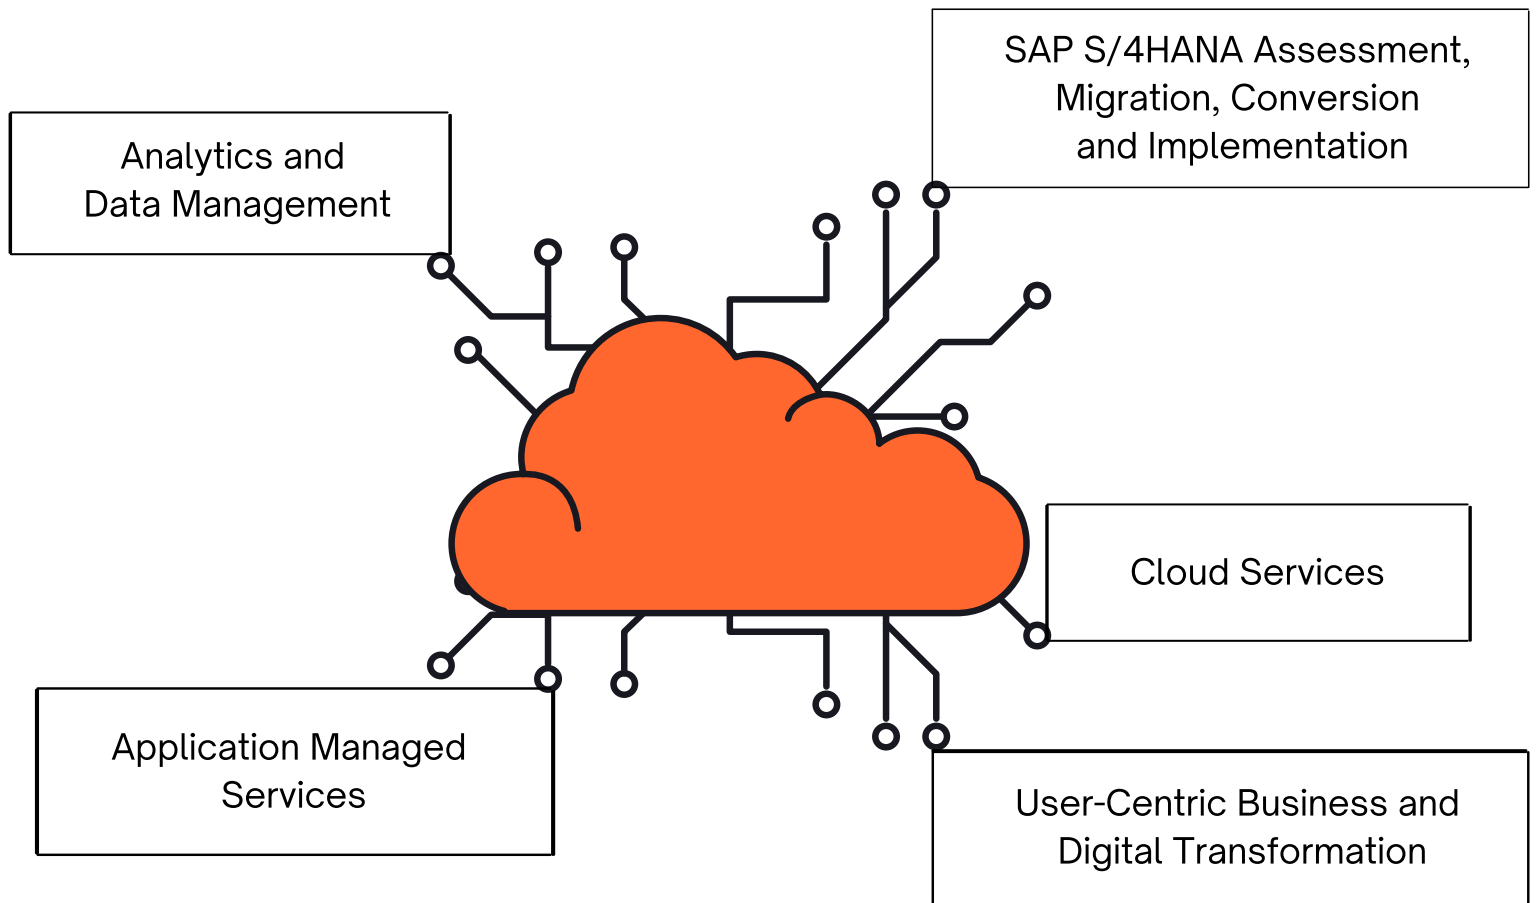

Our Clientele

We primarily work with the public sector, education industry and manufacturing companies. We have always over delivered and satisfied our customers with our services resulting in long term associations and recurring clients. Our first public sector customer in 2002 still continues to be our customer and our first commercial customer in 2006 still continues to work with us. That speaks volumes to our continued value and benefit that we provide to our customers, a fact that we take both passion and pride into. We have certified partnership with all the major brands like SAP, Oracle, Microsoft, AWS Azure, GCP, Cisco, IBM, Vmware, Dell, HPE and other leading players in the market.

We have served over 60+ leading industry brands in the past. Most of them are top rank holders in the Fortune 50 companies. Some are major players in the manufacturing market and others are the state systems of higher education, Seal of some great states in United States and the list goes on. We value our customers and aim to provide quality service and complete answer to all your problems at one stop- V3iT. There is no match with other service providers in industry as we provide ***"Everything as a Service"*** at V3iT.

We wish to provide you with our services so that you can focus on the primary business objectives and take your business to greater heights this year.

V3iT Service Offerings

Analytics and Data Management

With over 21 years of SAP experience, we have put together Analytics Library which has all the processes and workflows required in a data centric business. It provides you all Financial Statements and Ratios at a few clicks away, that helps you get insights into your company's performance metrics. These numbers will help you gain meaningful information about the company and will help you better align your processes with your goals. This is instant value provided for your investment.

Apart from the Analytics Library, we also provide numerous methods to help you integrate, refine, analyze data from multiple sources in a way that you can derive meaningful information from that data. This information is valuable and helps you take important strategic decisions for future growth of the organization.

**WE ARE A CORPORATE
COMPANY THAT AIMS
TO PROVIDE YOU WITH
THE BEST SERVICE.**

SAP S/4HANA Systems and Processes

We provide the whole spectrum of processes your business requires. The transformation of your existing systems to SAP S/4HANA is personalized based on your existing platforms taking in account your questions and concerns about the migration process, benefits, costs involved, impacts, the possible roadmaps to move to SAP S/4HANA.

The data migration to SAP S/4HANA will make your business so much more efficient. You can replace hourly jobs with just few seconds. You can use RFIDs, barcodes to expedite the tracking and delivery in supply chains. You can soft-close your financials before the month end close. The benefits of making a shift are endless.

We also offer multiple deployment methods to fulfill the transformation of services. We care about your business and will answer all your queries throughout the journey.

SERVICES WE OFFER

- ERP – Financials (AP/AR/GL), Logistics (MM/SD/PP), Project Systems, HR
- Embedded Business Analytics – Business Information Warehouse, Qualtrics Analytics (Experience Management)
- Supply Chain Management
- Embedded Human Capital Management to help you hire the right people
- Employee expense and travel management
- Faster online transactional data processing

Cloud Services

We are one of the few vendors who support all the three major public clouds that includes Azure, GCP, and AWS. We also host systems for various public sector customers at our own data centre. We have been of service to Fortune 50 and its subsidiaries where we migrated their SAP instances to HANA and other databases in private cloud, Azure, AWS, GCP environments as well as Hybrid Cloud. We provide harmony between the three cloud technologies and your end users will have seamless experience.

Migrating your existing servers onto the cloud will not only help you eliminate the costly hardware, servers but also provide best security with pay-as-you-go pricing. It provides on demand delivery of IT resources without the need of owning and maintaining physical data centres and servers, hence reducing costs. We also provide a disaster recovery plan to provide your critical business applications. Our reference architectures expedite the cloud migration. Over 90% of businesses are already using cloud technology in a public, private or hybrid cloud environment. In 2021 your business can also reach global heights with our Cloud services.

SERVICES WE OFFER

- Compute (IaaS)
- Container (K8)
- Storage (IaaS)
- Database
- Migration and Transfer
- DEVOPS
- Edge Technologies (Robotics, Blockchain, Quantum, IoT, Machine Learning)
- Security, Identity and Compliance, Management and Governance, Serverless
- Analytics
- And many more...

Application Managed Services

This is the core service area that we offer our clients. We provide development, operations, functional support, platform support. You can take up any service that your business requires. We believe in holistic solution methodology unlike our competition where some provide just application layer support and some offer just the data layer services. But we offer all the services to solve all your problems in one go.

DEVOPS – Development and Operations

- Traditional Development (Waterfall)
- Agile Development
- Every enterprise is going mobile, all transactions should work alike on Desktop/Laptop/Mobile. User centric design and adoption takes place around FIORI.

Functional or Business Process Support

- Support for industry specific as well as industry agnostic processes such as FI, MM, SD, PP, HR etc.

Platform Support (Basis)

- BTP – Business Technology Platform (cloud agnostic/ on-premise)
- Basis Support
- Cloud/ On-premise/ Hybrid support
- Hypervisor Support – VMWARE
- Network Support – CISCO, Barracuda, Juniper
- Database Support – SAP HANA, IBM (DB2), Oracle, Microsoft SQL Server
- Operating System Support (Microsoft Windows, UNIX, LINUX – Redhat and SUSE)

We also provide flexible staffing over traditional which solves sudden unavailability of resources and fulfills urgent need of new skilled employees. We assign Engagement Managers to your projects as a point of contact who manage all the processes to ensure on time delivery of your projects. We offer Guaranteed SLAs for customer satisfaction.

V3iT Consulting is an SAP Service Partner, SAP Channel Partner and one of the few companies that initially got certified as an Applications Managed Services Provider by SAP. We have a seasoned team of consultants with over 25+ years of SAP experience. We will provide you with fixed cost support services which helps you get quality service within your budget. You can monitor your projects in real time keeping an eye on the project deliverables.

User-Centric Business and Digital Transformation

We study & understand your business strategies, processes & define your challenges from a user-centric perspective. We then design a personalized transformation strategy for your business. Throughout this process we work in close collaboration with you and your organization involving you at every step so that the final outcome or product aligns with your organizational objectives.

We clearly outline the method we will use for your data transformation, tools and techniques, disaster recovery steps keeping in mind the security considerations throughout. We also make sure this migration does not stop your ongoing business processes. This entire process is called Design Thinking. It takes place taking into account your opinions and answering your queries at every step. Your continuous involvement at every step ensures we are moving towards the right goal as well as the deployment is end user adopted.

**IT'S ALL ABOUT
CUSTOMERS**

Reasons Why You Should Choose V3iT

- ✓ We have been in the industry for over 20+ years now and hence we are well aware of the technical and cultural needs of the organization. The repetitive nature of this work and the extensible nature of this work will certainly benefit you as a client.
- ✓ V3iT is an SAP Services and Education Partner with solution authorizations in the areas of SAP S/4HANA, S/4HANA Cloud, Database and Data Management, SAP Business All-in-One and a channel reseller.
- ✓ SAP projects generate over 95% of our business revenues with over 75% of that coming from Public Sector SAP customers.
- ✓ V3iT Consulting Inc. is also a partner to ESRI, Oracle, Microsoft, HPE, IBM, VMware, etc. and very tightly integrated these software and hardware providers. We are one of the few vendors who support all the three major public clouds that includes Azure, GCP, and AWS.
- ✓ We offer cost-effective yet value-oriented solutions.
- ✓ Prior experience with Public Sector Organizations in nearly 10+ states for past several years, an experience which will help you immensely if we work together. We have given our services to top Fortune 50 organizations.
- ✓ Although headquartered locally in Chicago-land, we have locations in California and Pennsylvania thereby having the breadth of the coverage that your business will require timewise.
- ✓ Established 24X7X365 support network.
- ✓ V3iT has consultants certified in technologies that includes Cloud, AIML, IOT, SAP S/4HANA and others. With nearly 100 SAP certified consultants, we achieved a rare feat in most SAP consulting companies of any size.
- ✓ Unlike other companies which will provide you just the resources to do the work, we assign an Engagement Manager to each of our projects, who continuously introspects the work assigned by the you to those consultants.
- ✓ Unlike our competition, we also perform trials during off hours at our own cost.
- ✓ Holistic approach to support your entire ecosystem of IT and business applications with business (functional) and technical know-how, which is vital to lifeline support for any enterprise application(s) support in major IT organizations.
- ✓ We aim to provide the best performance to you with the most optimal TCO and a very handsomely rewarding ROI on the investment and trust you will entrust in us.
- ✓ V3iT's executive management is committed to ensure we meet these expectations.
